LEVEL 300

NURC 315: THEORETICAL FOUNDATIONS OF NURSING 2 CREDITS

January, 2022

40 Marks

Time Allowed: 60 Minutes

SECTION 'A'

GENERAL INSTRUCTION TO CANDIDATES:

- THIS PAPER IS IN TWO PARTS: SECTIONS 'A' AND 'B'
- Write your index number at the top of the question paper.
- Answer **ALL** questions.
- Do not take the question paper out of the examination room.

1. Betty Neuman's theory on a person was?

- A. A whole being that consists of spiritual, intellectual, and physiological components
- B. An integrated being constantly changing because of environmental influences
- C. An integrated whole being constantly seeking spiritual guidance
- ☒ D. Being whole and integrated into a variable state of change

2. Dorothea Orem's theory consisted of?

- A. Human is willing to take care of themselves.
- ☒ B. Basic human needs are met through self-care activities.
- C. The self-care activities consist of fourteen detailed components.
- D. The basic foundation to caring for oneself.

3. Florence Nightingale believed the environment to be?

- A. Either a negative or positive influence on the person
- B. Those aspects outside the person that affect health
- C. An external force that affects the person's health
- ☒ D. All of the above

4. Which of the following statements is related to Florence Nightingale?

- A. Nursing is therapeutic interpersonal process.
- ☒ B. The role of nursing is to facilitate "the body's reparative processes" by manipulating client's environment.

C. Nursing is the science and practice that expands adaptive abilities and enhances person and environment transformation

D. Nursing care becomes necessary when client is unable to fulfill biological, psychological, developmental, or social needs.

5. Which of the following theory has used "General Systems Theory" as a framework for its development?

- A. Florence Nightingale's Environment Theory
- B. Hildegard E. Peplau's Psychodynamic Nursing Theory
- C. Martha E. Roger's: Science of Unitary Human Beings
- ☒ D. Neuman's model

6. According to Neuman Systems Model, the increase in energy that occurs in relation to the degree of reaction to the stressor is termed as:

- ☒ A. Reconstitution
- B. Lines of resistance
- C. Primary prevention
- D. Secondary Prevention

7. Statements that explain the relationship between the concepts in a theory:

- ☒ A. Propositions
- B. Assumptions
- C. Predictions
- D. Process

8. The principles of conservation of energy, structural integrity, personal integrity and social integrity were explained by:

- A. Lydia Hall
- ☒ B. Myra Estrine Levine
- C. Betty Neuman
- D. Hildegard Peplau

9. Concept related to Betty Neuman's System Model of Nursing is:

- A. Pattern
- B. Rhythmicity
- C. Dependency
- ☒ D. Open system

10. All the following are concepts related to Levin's Conservation Principles, EXCEPT:

- A. Historicity
- B. Specificity
- ☒ C. Helicy
- D. Redundancy

11. Which of the following is an organismic response as per Levin's Four Conservation Principles?

- ☒ A. Flight or fight
- B. Adaptation
- C. Communication
- D. Transaction

12. "The practice of activities that individual initiates and perform on their own behalf in maintaining life, health and well-being" is:

- A. Self-care agency
- ☒ B. Self-care
- C. Therapeutic self-care demand
- D. Nursing systems

13. Category of self-care requisites according to Orem's theory of nursing includes all, EXCEPT:

- A. Universal
- B. Developmental
- C. Health deviation
- ☒ D. Fundamental

14. Our sense of knowing right and wrong is what type of knowing?

- E. Personal knowing
- ☒ F. Ethical knowing
- G. Empirical knowing
- H. Aesthetic knowing

15. Metaphysics is a branch of philosophy which deals with

- ☒ I. Study of nature of reality
- J. Moral philosophy
- K. The study of valid argument forming
- L. Theory of knowledge

16. Which level of needs in Maslow's hierarchy includes love, friendship, intimacy, and family?

- A. Self-actualization
- B. Esteem
- ☒ C. Belongingness
- D. Safety

17. In a theory, a statement of relationship between concepts is called.....

- A. Conceptual model
- B. Hypothesis
- ☒ C. Proposition
- D. Construct

18. Notes on Nursing: What it is, what it is not was written by:

- A. Virginia Henderson
- B. Betty Neuman
- C. Imogene King
- ☒ D. Florence Nightingale

19. A system of nursing care in which patients are placed in units on the basis of their needs for care as determined by the degree of illness rather than on the basis of a medical specialty is:

- A. Primary nursing
- B. Team nursing
- ☒ C. Progressive patient care
- D. Case method

20. Which of the following terms refers to the branch of philosophy that deals with questions concerning the nature, scope, and sources of knowledge?

- ☒ A. Epistemology
- B. Epidemiology
- C. Metaphysics
- D. Ontology

21. Metaphysics is a branch of philosophy which deals with:

- A. The study of valid argument forms
- B. Theory of knowledge
- C. Moral philosophy
- ☒ D. The study of the nature of reality

22. Which of the following is NOT a concept related to Nightingale theory?

- A. "Poor or difficult environments led to poor health and disease".
- B. "Environment could be altered to improve conditions so that the

natural laws would allow healing to occur".

- C. The goal of nursing is "to put the patient in the best condition for nature to act upon him".
- ☒ D. "Human beings are open systems in constant interaction with the environment".

23. A paradigm refers to.....

- ☒ A. A model that explains the linkages of science, philosophy, and theory accepted and applied by the discipline
- B. Ideas and mental images that help to describe phenomena
- C. Statements that describe concepts
- D. Aspect of reality that can be consciously sensed or experienced

24. The study of feedback and derived concepts such as communication and control in living organisms, machines and organizations is termed as:

- ☒ A. Cybernetics
- B. Ontology
- C. Epistemology
- D. Philosophy

25. A theory that has accrued such persuasive empirical support that is accepted as truth:

- A. Rule
- B. Model
- ☒ C. Law
- D. Framework

26. In Virginia Henderson's 1966 definition of nursing, a person /client has which number of fundamentals needs?

- A. 7
- ☒ B. 14
- C. 18
- D. 22

27. "What is the nature of reality?" This question is pertaining to which branch of philosophy?

- A. Axiology
- B. Epistemology
- C. Methodology
- ☒ D. Ontology

28. A broad theory aimed at describing large segments of the physical, social or behavioural world:

- ☒ A. Grand theory
- B. Middle-range theory
- C. Utility theory
- D. Philosophy

29. When nurses assist clients in exploring their lifestyle habits and health behaviours to identify health risks, nurses are most likely to use which of the following models?

- A. medical models
- ☒ B. wellness models
- C. psychosocial model
- D. physiological model

30. The lowest level of Maslow's Hierarchy of needs is which of the following?

- A. safety and security needs
- B. love and belongingness needs
- ☒ C. physiological needs

D. self-esteem needs

31. The science of nursing is what type of knowing?

- A. emancipatory
- B. personal
- ☒ C. empirical
- D. ethical

32. The systematic problem-solving approach towards providing individualized care is known as

- A. Nursing care plan
- ☒ B. Nursing process
- C. Nurses notes
- D. Nurses practice art

33. Information verbalized by the patient is called

- ☒ A. Subjective data
- B. Initial data
- C. Focus data
- D. Objective data

34. The following are the philosophy of nursing EXCEPT:

- A. Patient
- B. Health
- ☒ C. Treatment
- D. Environment

35. The nurse is researching evidence based practice and needs related literature. The nurse understands that the best source of reliable writing is:

- ☒ A. Systematic review and meta-analysis studies
- B. Experts opinions
- C. Qualitative studies
- D. Case studies.

**36. The nursing process is
.....framework for all nurse
patient interactions.**

- A. critical thinking
- B. curative
- ☒ C. problem solving
- D. rehabilitative

**37. The phase which is not involved
in the nursing process is.....**

- A. Assessment
- ☒ B. Interpretation
- C. Nursing diagnosis
- D. Evaluation

38. Health is a process.

- A. Systematic
- B. Curative
- ☒ C. Dynamic
- D. Preventive

**39. Health is the optimal functioning
of the body, mind and**

- A. Culture
- ☒ B. Spirit
- C. Value
- D. Energy

**40. A theory of knowledge
emphasizing the role of
experience, especially experience
based on perceptual observations
by the senses is:**

- ☒ A. Empiricism
- B. Rationalism
- C. Constructivism
- D. Infinitism
