

66. The following are decision making structures of a community *EXCEPT*
- (a) Homogeneous
 - ☒ (b) Heterogeneous
 - (c) Common group
 - (d) Sub-group
67. The following are leadership composition of a community *EXCEPT*
- ☒ (a) Common interest leaders
 - (b) Opinion leaders
 - (c) Formal leaders
 - (d) Informal leaders
68. Which of the following is a type of family?
- (a) Closed family
 - (b) Open family
 - (c) Random family
 - ☒ (d) Extended family
69. Which of the following is parts of the *four (4)* pillars of Primary Health Care
- (a) Oral rehydration services
 - (b) Emergency services
 - (c) Promotive services
 - ☒ (d) Immunization services
70. The first essential component of Primary Health Care is
- (a) Maternal and Child Health Care including family planning
 - (b) Water supply and basic sanitation
 - ☒ (c) Health Education including feeding
 - (d) Provision of Essential Drugs
71. Which of the following is a reason for referral in Primary Health Care?
- (a) Unfavourable attitude of health care workers
 - ☒ (b) Standing orders instruction to do so
 - (c) Patient's condition is improving gradually
 - (d) Patient's condition is covered by the standing order
72. The cold chain equipment used at outreach sites is
- ☒ (a) Cold box
 - ☒ (b) Ice pack
 - (c) Vaccine carrier
 - (d) Freezer

73. Zero dose polio vaccine means

- (a) No vaccination
- (b) Dose after 1st dose
- (c) No antibody response
- (d) Vaccination at displaced persons camp

74. The following are freeze dried vaccines *EXCEPT*

- (a) BCG
- (b) Yellow fever
- (c) DPT
- (d) Measles

75. The dose of BCG for neonates is.

- (a) 5.0 ml
- (b) 0.5 ml
- (c) 0.05 ml
- (d) 0.1 ml

76. Which of the following hypnotic is a benzodiazepine derivative?

- (a) Flurazepam
- (b) Zolpidem
- (c) Phenobarbital
- (d) Secobarbital

77. Which of the following barbiturates is an ultra-short acting drug?

- (a) Secobarbital
- (b) Amobarbital
- (c) Thiopental
- (d) Phenobarbital

78. Which of the following agents inhibits hepatic metabolism of hypnotics?

- (a) Flumazenil
- (b) Cimetidine
- (c) Phenytoin
- (d) Theophylline

79. The drug of choice for partial seizures is

- (a) Carbamazepine
- (b) Ethosuximide
- (c) Lamotrigine
- (d) Diazepam

80. Which of the following is a drug of choice for status epilepticus in infants and children?
- (a) Clonazepam
 - (b) Phenytoin
 - (c) Ethosomide
 - (d) Phenobarbital sodium
81. Which part of pharmacokinetic process would be affected by decreased serum albumin in older adults?
- (a) Excretion
 - (b) Metabolism
 - (c) Distribution
 - (d) Absorption
82. What is the major factor in administering medications to a one year old infant?
- (a) Weight of the child
 - (b) Age of the child
 - (c) Ethnicity of the child
 - (d) Sex of the child
83. The preoperative order for an adult client includes phenobarbital. The drug is administered primarily to
- (a) Control secretions
 - (b) Control pain
 - (c) Promote sedation
 - (d) Provide anesthesia
84. Gastric acid secretion is under the control of the following agents *EXCEPT*
- (a) Histamine
 - (b) Acetylcholine
 - (c) Serotonin
 - (d) Gastrin
85. Which of the following drugs causes reversible gynecomastia?
- (a) Pirenzepine
 - (b) Omeprazole
 - (c) Sucralfate
 - (d) Cimetidine

86. Which of the following is rich in fibres?

- (a) Tomatoes
- (b) Carrots
- (c) Pumpkin
- (d) Potatoes

87. A diet high in saturated fats can be linked to

- (a) Renal failure
- (b) Diabetes mellitus
- (c) Cardiovascular disease
- (d) Ulcerative colitis

88. Amylases in the saliva begin the breakdown of carbohydrates into

- (a) Simple sugar
- (b) Compound sugar
- (c) Polypeptides
- (d) Glycerol

89. A unit of energy indicating the amount contained in food is

- (a) Kilojoule
- (b) Calorie
- (c) Kilogram
- (d) Ounces

90. Citrus fruits are excellent sources of

- (a) Vitamin A
- (b) Vitamin B
- (c) Vitamin C
- (d) Vitamin D

91. The stimulus - response theory was propounded by

- (a) Thorndyke
- (b) Pavlov
- (c) Piaget
- (d) Bruner

92. Learning is best described as

- (a) Reception of information
- (b) New experience of study
- (c) Change in behavior acquired in-school
- (d) Change in behavior as a result of experience

93. The head nurse in working with other staff as a team needs to
- (a) Increase staff wages
 - ☒ (b) Encourage staff participation in decision making
 - (c) Encourage freedom of decision making by staff
 - (d) Work with the hardworking staff to get work done well
94. Capital budget is for
- (a) Subsidies
 - (b) Wages and Salaries
 - ☒ (c) Infrastructures
 - (d) Interest payment
95. The following are the purposes of Nursing Audit *EXCEPT*
- (a) To evaluate nursing care given
 - (b) To contribute to nursing research
 - ☒ (c) To focus on the care provided and not on the provider
 - (d) To evaluate the fault - finding assignment
96. The following are the skills and competencies required by a Manager *EXCEPT*
- ☒ (a) Conceptual skill
 - (b) Communication skill
 - ☒ (c) Contextual skill
 - (d) Technical skill
97. An ineffective human relations skill of a manager is
- (a) Indifference
 - (b) Broadmindedness
 - (c) Empathy
 - ☒ (d) Selflessness
98. Which of the following is a "win-win" conflict resolution strategy?
- (a) Compromise
 - (b) Competition
 - ☒ (c) Collaboration
 - (d) Withdrawal

99. The measurement, processing and communication of financial information about economic entities refers to
- (a) Coordinating
 - (b) Budgeting
 - (c) Financial report
 - ☒ (d) Accounting.
100. The following are the components of ward management *EXCEPT*
- ☒ (a) Policy interpretation
 - (b) Ward round
 - (c) Medication round
 - (d) Patient care

PAPER II

SECTION B: OBJECTIVE QUESTIONS (40%)

Answer ALL questions

Time Allowed: 3 Hours for Sections A & B

INSTRUCTIONS: The following are Objective Test Items. CIRCLE the appropriate OPTION with BIRO. Each question counts for ONE (1) mark. Enter your NUMBER on this booklet. This Booklet MUST be attached to the essay answer script.

1. The system that controls the major movements of the body is
 - (a) The skeletal system
 - (b) The nervous system
 - (c) The endocrine system
 - (d) The circulatory system
2. Neurons are also known as
 - (a) Ganglion
 - (b) Nerve cells
 - (c) Axons
 - (d) Dendrites
3. The centre of mental activity in the body is the
 - (a) Spinal cord
 - (b) Neurons
 - (c) Brain
 - (d) Microglia
4. The nervous system can stimulate or inhibit the activities of other systems in order to maintain
 - (a) Integration
 - (b) Sensory input
 - (c) Mental balance
 - (d) Homeostasis

5. The following are types of neurons *EXCEPT*

- (a) Unipolar
- (b) Bipolar
- ☒ (c) Tripolar
- (d) Multipolar

6. Most of the neurons within the central nervous system are

- ☒ (a) Multipolar
- (b) Tripolar
- (c) Bipolar
- (d) Unipolar

7. Which of the following statements best describes the Schwann cells?

- (a) Small mobile cells
- ☒ (b) Single cell surrounding axons
- (c) Star - shaped cells
- (d) Squamous epithelial cells

8. The part of the central nervous system that is housed within the cranial vault is

- ☒ (a) Brain stem
- (b) Spinal cord
- (c) Brain
- (d) Medulla oblongata

9. The most inferior portion of the brain stem is called

- ☒ (a) Medulla oblongata
- (b) Spinal cord
- (c) Midbrain
- (d) Pons

10. The largest part of the brain is the

- (a) Hypothalamus
- (b) Cerebellum
- ☒ (c) Cerebrum
- (d) Thalamus

11. The sensory structures that detect taste stimuli is known as

- (a) Taste hairs
- (b) Taste pore
- ☒ (c) Taste buds
- (d) Taste cells

12. Which of the following structures protect the eyes by preventing perspiration?
- (a) Eyebrows
 - (b) Eyelids
 - (c) Conjunctiva
 - (d) Iris
13. Pallor can be checked from the
- (a) Iris
 - (b) Sclera
 - (c) Conjunctiva
 - (d) Eyebrows
14. The part of the ear that functions in both hearing and balance is known as the
- (a) External ear
 - (b) Middle ear
 - (c) Inner ear
 - (d) Auricle
15. The bony labyrinth is found in the
- (a) External ear
 - (b) Inner ear
 - (c) Auricle
 - (d) Middle ear
16. Which of the following defines gerontology?
- (a) A field of nursing practice
 - (b) A categorized care for patients
 - (c) A scientific study of the ageing process
 - (d) A scientific approach to care of all diseases
17. Abdominal thrust is used in first aid for victims of
- (a) Drowning
 - (b) Gas poisoning
 - (c) Choking and airway blocking
 - (d) Cardiac arrest
18. The following changes affect the nervous system of an adult **EXCEPT**
- (a) Reduced temperature control
 - (b) Reduced speed in nerve conduction
 - (c) Increased confusion with physical illness
 - (d) Reduced cerebral function

19. The following are the common stressors of old age *EXCEPT*

- (a) Those affecting physical function
- (b) Those affecting relationship among peers
- (c) Those affecting appearance
- (d) Those that impair activities

20. Geriatric syndrome include the following *EXCEPT*

- (a) Abdominal distention
- (b) Dizziness
- (c) Impaired mobility
- (d) Increased susceptibility to infections

21. The following are three approaches to psychopathology *EXCEPT*

- (a) Psychoanalytic
- (b) Behavioral
- (c) Cognitive
- (d) Psychodynamic

22. Perception can be defined as

- (a) An experience within the mind, without the sense of reality
- (b) Misconceptions of external stimuli
- (c) The process of becoming aware of what is presented through the sense organs
- (d) The persistence of inappropriate repetition of the same thoughts

23. The following are anti-anxiety agents *EXCEPT*

- (a) Buspirone
- (b) Clonidine
- (c) Trazodone
- (d) Propranolol

24. Abnormal behaviours in patients with schizophrenia include the following *EXCEPT*

- (a) Avolition
- (b) Stereotyped behaviour
- (c) Lack of persistence at work
- (d) Grimacing

25. The preterm baby with respiratory distress syndrome has a high risk of developing

- (a) Hyperbilirubinemia
- (b) Bronchopulmonary dysplasia
- (c) Anaemia
- (d) Patent ductus arteriosus
