END OF SECOND SEMESTER EXAMINATIONS, 2023/2024 ACADEMIC YEAR
BSc GENERAL NURSING, LEVEL 400

MNUR 402: transcultural nursing

(Examiner: Mad Nadia Abbey)

09.00 Saturday, April 27, 2024

TIME ALLOWED: 2 HOURS

INSTRUCTIONS: ANSWER ALL QUESTIONS. ANSWER SECTION A ON THE QUESTION PAPER AND SECTION B IN THE ANSWER BOOKLET PROVIDED.

SECTION A [40 Marks]

Read the questions carefully and select the best choice for each question. Circle the letter corresponding to your choice provided.

1. You are caring for a client at the end of life. The client tells you that they are grateful for having considered and decided upon some end-of-life decisions and the appointments of those who they wish to make decisions for them when they are no longer able to do so. During this discussion with the client and the client's wife, the client states that "my wife and I are legally married so I am so glad that she can automatically make all healthcare decisions on my behalf without a legal durable power of attorney when I am no longer able to do so myself" and the wife responds to this statement with, "that is not completely true. I can only make decisions for you and on your behalf when these decisions are not already documented on your advance directive." How should you, as the nurse, respond to and address this conversation between the husband and wife and the end of life?
 - A. You should respond to the couple by stating that only unanticipated treatments and procedures that are not included in the advance directive can be made by the legally appointed durable power of attorney for healthcare decisions
 - B. You should be aware of the fact that the wife of the client has a knowledge deficit relating to advance directives and durable powers of attorney for healthcare decisions and plan an educational activity to meet this learning need.
 - C. You should be aware of the fact that the client has a knowledge deficit relating to advance directives and durable powers of attorney for healthcare decisions and plan an educational activity to meet this learning need.
 - D. You should reinforce the wife's belief that legally married spouses automatically serve for the other spouse's durable power of attorney for health care decisions and that others than the spouse cannot be legally appointed while people are married

2. Your client is in the special care area of your hospital with multiple trauma and severe bodily burns. This 45-year-old male client has an advance directive that states that the client wants all life saving measures including cardiopulmonary resuscitation and advance cardiac life support, including mechanical ventilation. As you are caring for the client, the client has a complete cardiac and respiratory arrest. This client has little of no chance for survival and they are facing imminent death according to your professional judgement, knowledge of pathophysiology and your critical thinking. You believe that all life saving measures for this client would be futile. What is the first thing that you, as the nurse, should do?
 - A. Call the doctor and advise them that the client's physical status has significantly changed and that they have just had a cardiopulmonary arrest.
 - B. Begin cardiopulmonary resuscitation other emergency life saving measures.
 - C. Notify the family of the client's condition and ask them what they should be done for the client.
 - D. Ensure that the client is without any distressing signs and symptoms at the end of life.
3. You are caring for a high-risk pregnant client who is in a life-threatening situation. The foetus is also at high risk for death. Clinical decisions are being made that concern you because some of these treatments and life saving measures promote the pregnant woman's life at the same time that they significantly jeopardize the foetus' life and viability and other decisions can preserve the foetus's life at the expense of the pregnant woman's life. Which role of the nurse is the priority at this time?
 - A. Case manager
 - B. Collaborator
 - C. Coordinator of care
 - D. Advocacy
4. You are asked by your supervisor to take photographs of the residents and their family members who are attending a holiday dinner and celebration at your long-term care facility. What should you do?
 - A. Take the photographs because these photographs are part of the holiday tradition at this facility
 - B. Take the photographs because all of the residents are properly attired and in a dignified condition
 - C. Refuse to take the photographs unless you have the consent of all to do so
 - D. Refuse to take the photographs because this is not part of the nurse's role
5. Which is most closely aligned with ethics?
 - A. Morals
 - B. Laws
 - C. Statutes
 - D. Client rights
6. Elect the client religion that is the most pertinent to the role of the admissions coordinator of hospital who assigns the rooms and beds of clients who will be admitted.
 - A. Hinduism
 - B. Buddhism
 - C. Islam
 - D. Christianity

7. A nurse is preparing a plan of care for a client who is a Jehovah's Witness. The client has been told that the surgery is necessary. The nurse considers the client's religious preferences in developing the plan of care and documents that:
 - A. Giving any medication is not allowed
 - B. Surgery is strictly prohibited
 - C. Blood products cannot be administered
 - D. Alternative medicines can be advised
8. The nurse is providing instructions to a Chinese-American client about the frequency and dosages of the take home medicines. When conducting the teaching, the client continuously turns away from the nurse. The nurse should do which of the following appropriate action?
 - A. Walk around the client so that the nurse can constantly face the client
 - B. Continue with the instructions, then confirming client's understanding
 - C. Call the attention of the client by speaking loudly.
 - D. Hand over a written instruction and discuss only what the client doesn't understand.
9. An American nurse tries to speak with a Korean client who cannot understand the English language. To effectively communicate to a client with a different language, which of the following should the nurse implement?
 - A. Speak slowly
 - B. Speak loudly and closely to the client
 - C. Have an interpreter to translate
 - D. Speak to the client and family together.
10. A clinic nurse is performing an admission assessment for an African-American client scheduled for an emergency appendectomy. Which of the following questions would be inappropriate for the nurse to ask for the initial evaluation?
 - A. Do you have any allergy to medicines?
 - B. When did the pain start?
 - C. Do you have any difficulty breathing?
 - D. How close is your family during these situations?
11. A nurse is conducting an assessment of an American Indian woman who has come to the clinic complaining of a headache. The patient tells the nurse that the medicines prescribed by the tribal healer have done some good. What is the appropriate response of the nurse at this time?
 - A. Tell me about these medicines and how often you are using them
 - B. I advise you to refrain taking those medicines from the tribal healer
 - C. Could these medicines cause your headaches?
 - D. Maybe you should increase the frequency of the healer's medicines
12. Transcultural nursing is defined as:
 - A. Providing care to patients from different cultures
 - B. Treating patients of all ages
 - C. Delivering care across various healthcare settings
 - D. None of the above

13. Which of the following is NOT a key component of transcultural nursing.
- A. Cultural competence
 - B. Language proficiency
 - C. Diversity awareness
 - D. Advanced medical procedures
14. The goal of transcultural nursing is to:
- A. Eliminate cultural diversity
 - B. Provide standardized care to all patients
 - C. Deliver culturally competent care
 - D. None of the above
15. Cultural competence refers to...
- A. Having knowledge and understanding of one's own culture only
 - B. Understanding and respecting the beliefs and values of patients from diverse cultures
 - C. Speaking multiple languages fluently
 - D. None of the above
16. Which of the following is an important skill for transcultural nurses?
- A. Ignoring cultural differences
 - B. Assuming that all patients have similar beliefs
 - C. Respecting diverse perspectives and practices
 - D. Avoiding communication with patients from different cultures
17. Transcultural nursing promotes:
- A. Ethnocentrism
 - B. Cultural humility
 - C. Assimilation of all patients into one cultural norm
 - D. Avoidance of diverse patient populations
18. Why is transcultural nursing important in healthcare?
- A. It reduces the need for language interpretation services
 - B. It improves patient outcomes and satisfaction
 - C. It limits access to healthcare for minority populations
 - D. It standardizes care delivery across all patient populations
19. Which approach should nurses adopt to provide effective transcultural care?
- A. Assuming that all patients have similar beliefs and practices
 - B. Relying solely on medical interventions
 - C. Acknowledging and respecting cultural differences
 - D. Ignoring the impact of culture on healthcare
20. Which of the following is a barrier to providing culturally competent care?
- A. Having limited awareness of cultural differences
 - B. Being open-minded and flexible
 - C. Respecting patients' beliefs and values
 - D. Embracing diversity in patient populations

21. In a small, rural hospital the nurse is caring for a patient who speaks a language other than English. The nurse needs to use an interpreter to communicate but the hospital does not have access to an interpreter who speaks the patient's language. When choosing another individual to interpret for this patient, what characteristic should the nurse prioritize?
- A. Interpreter should recognize the need to speak in a loud voice
 - B. Interpreter should be able to conduct the conversation quickly to avoid misinterpretation
 - C. Interpreter should be fluent in several dialects of the patient's language
 - D. Interpreter should know that repetition must be avoided while interpreting
22. You are a community health nurse who provides care to a group of Hispanic people living in an area that is predominantly populated by Caucasian people. How would you characterize the Hispanic people in this community?
- A. An underclass
 - B. A sub group
 - C. A minority
 - D. An exception
23. The nurse is helping a patient choose her menu options for the following day. The nurse reads out the option of ham with scalloped potatoes and the patient states that her religion does not allow this. Which of the following is most likely the patient's religion?
- A. Roman Catholicism
 - B. Buddhism
 - C. Islam
 - D. Mormonism
24. You are the nurse caring for a patient who is a recent immigrant to the United States from Mexico. Which of the following variables would you prioritize when performing an assessment of the patient's cultural beliefs?
- A. Patients' previous medical history
 - B. Patients' marital status
 - C. Patients age
 - D. Patients' communication style
25. You are caring for a patient who is terminally ill whose family has requested to hold a spiritual ceremony during which they will be using incense. What would be the best intervention you could make on behalf of this patient?
- A. Discourage the use of incense in the hospital
 - B. Ask the family to have the ceremony off the unit
 - C. Arrange for the ceremony to occur after notifying all departments affected
 - D. Encourage the family to conduct the ceremony elsewhere because it may affect other patients
