- A. Police department
- B. Child protection services (CPS) or similar agency
- C. Healthcare facilities
- D. Community centers

Answer: B. Child protection services (CPS) or similar agency

3. What is the first step for healthcare professionals when they suspect a case of child abuse?

- A. Call the police
- B. Document findings and report to child protection authorities
- C. Notify the child's parents
- D. Refer the child for counseling

Answer: B. Document findings and report to child protection authorities

4. Which of the following is a key principle in child protection?

- A. Confidentiality at all costs
- B. Acting in the best interest of the child
- C. Focusing only on physical injuries
- D. Reunifying the child with their family immediately

Answer: B. Acting in the best interest of the child

5. When conducting interviews with an abused child, it is essential to:

- A. Use leading questions to gather evidence
- B. Ensure a non-threatening and supportive environment
- C. Allow the suspected abuser to be present
- D. Ask the child for proof of abuse

Answer: B. Ensure a non-threatening and supportive environment

6. What is the role of mandatory reporting in child protection?

- A. Protecting healthcare professionals from legal accountability
- B. Ensuring that suspected cases of abuse are reported to authorities
- C. Limiting intervention to severe abuse cases only
- D. Avoiding legal proceedings

Answer: B. Ensuring that suspected cases of abuse are reported to authorities

7. Which of the following best describes a multidisciplinary approach in child protection?

- A. A team consisting only of doctors and nurses
- B. Collaboration between health, legal, social, and psychological professionals
- C. Community members monitoring abuse cases
- D. Limiting involvement to a single professional

Answer: B. Collaboration between health, legal, social, and psychological professionals

8. In cases of suspected abuse, the documentation by healthcare professionals should include:

- A. Subjective opinions about the family
- B. Objective details of injuries, child statements, and observations
- C. Speculations about the abuser
- D. Information obtained from other children in the family

Answer: B. Objective details of injuries, child statements, and observations

9. The "best interest of the child" principle emphasizes:

- A. Keeping the family's reputation intact
- B. Ensuring decisions prioritize the child's safety and development
- C. Avoiding involvement in legal matters
- D. Reunifying the child with their parents at all costs

Answer: B. Ensuring decisions prioritize the child's safety and development

10. Which of the following is NOT a child protection service responsibility?

- A. Investigating reports of abuse
- B. Providing legal defense for abusers
- C. Arranging temporary or permanent placements for the child
- D. Supporting the child's recovery through counseling

Answer: B. Providing legal defense for abusers

11. The role of healthcare professionals in child protection includes:

- A. Deciding custody arrangements for the child
- B. Diagnosing and documenting signs of abuse
- C. Avoiding involvement in legal cases
- D. Protecting the identity of the abuser

Answer: B. Diagnosing and documenting signs of abuse

12. In cases where immediate safety is a concern, the child protection team should:

- A. Inform the parents of the findings
- B. Remove the child from the unsafe environment temporarily
- C. Wait for further evidence to act
- D. Focus on providing medical care only

Answer: B. Remove the child from the unsafe environment temporarily

13. What is the key objective of counseling abused children?

- A. Encouraging them to forget the abuse
- B. Helping them heal emotionally and rebuild trust
- C. Preparing them for legal proceedings
- D. Reintegrating them with their abuser

Answer: B. Helping them heal emotionally and rebuild trust

14. What is a critical component of child protection systems?

- A. Regular monitoring and evaluation of reported cases
- B. Prosecuting parents in every reported case
- C. Keeping abuse cases confidential
- D. Limiting intervention to immediate needs

Answer: A. Regular monitoring and evaluation of reported cases

15. Which action is inappropriate for healthcare professionals in child protection cases?

- A. Reporting suspected abuse to authorities
- B. Documenting objective findings
- C. Confronting the suspected abuser directly
- D. Referring the child for psychosocial support

Answer: C. Confronting the suspected abuser directly

- A. Preventing future abuse in the community
- B. Rehabilitating victims to reduce long-term harm
- C. Educating parents about parenting skills
- D. Conducting public awareness campaigns

Answer: B. Rehabilitating victims to reduce long-term harm

17. Why is confidentiality important in child protection cases?

- A. To protect the child from further harm and stigma
- B. To avoid mandatory reporting requirements
- C. To ensure the case remains unresolved

D. To protect the family's reputation at all costs

Answer: A. To protect the child from further harm and stigma

18. The role of law enforcement in child protection includes:

A. Providing therapy for the child

B. Investigating abuse allegations and ensuring legal action

C. Reuniting the child with their family

D. Deciding medical treatment for the child

Answer: B. Investigating abuse allegations and ensuring legal action

19. Which of the following best supports a child-centered approach in abuse cases?

A. Prioritizing the family's needs

B. Focusing on the child's safety, recovery, and future development

C. Minimizing legal involvement

D. Avoiding communication with the child about their abuse

Answer: B. Focusing on the child's safety, recovery, and future development

20. Child protection frameworks emphasize:

A. Punishment of abusers

B. Holistic care and prevention of further harm to the child

C. Reuniting the child with their family regardless of circumstances

D. Focusing only on physical injuries

Answer: B. Holistic care and prevention of further harm to the child

21. What is a sign of effective child protection management?

A. Reduced involvement of multidisciplinary teams

B. Timely intervention and ongoing support for the child

C. Avoiding legal action to reduce family tension

D. Emphasizing confidentiality over mandatory reporting

Answer: B. Timely intervention and ongoing support for the child

22. What is the role of foster care in child protection?

A. Providing a safe, temporary home for children removed from unsafe environments

B. Replacing the role of parents permanently

C. Avoiding legal investigations

D. Ensuring the child does not receive counseling

Answer: A. Providing a safe, temporary home for children removed from unsafe environments

23. Child protection plans are designed to:

A. Outline steps to ensure the child's safety and meet their developmental needs

B. Protect the identity of the suspected abuser

C. Focus solely on physical injuries

D. Avoid legal intervention

Answer: A. Outline steps to ensure the child's safety and meet their developmental needs

24. Healthcare professionals should collaborate with child protection agencies to:

A. Manage the family's reputation

B. Support the child's recovery and ensure legal compliance

C. Penalize suspected abusers immediately

D. Limit involvement to medical treatment only

Answer: B. Support the child's recovery and ensure legal compliance

25. Which of the following is NOT part of a child protection team?

A. Social workers

B. Police officers

C. Healthcare professionals

D. Community volunteers without training

Answer: D. Community volunteers without training

26. What is a key outcome of successful child protection interventions?

A. Immediate punishment for abusers

B. Long-term safety, recovery, and development of the child

C. Avoidance of public involvement

D. Limiting intervention to physical care only

Answer: B. Long-term safety, recovery, and development of the child

27. Child protection systems prioritize:

A. Providing comprehensive support to victims and their families

B. Minimizing government intervention

C. Avoiding reports unless there is concrete evidence

D. Focusing exclusively on legal action

Answer: A. Providing comprehensive support to victims and their families

28. The principle of “non-maleficence” in child protection means:

A. Avoiding harm to the child in all interventions

B. Ensuring legal action is swift and publicized

C. Prioritizing confidentiality over reporting

D. Allowing the family to decide the course of action

Answer: A. Avoiding harm to the child in all interventions

29. Child advocacy in protection frameworks involves:

A. Representing the child’s best interests in all legal and care decisions

B. Supporting the parents’ viewpoint

C. Limiting the child’s involvement in decision-making

D. Avoiding court involvement

Answer: A. Representing the child’s best interests in all legal and care decisions

30. Why are follow-up evaluations essential in child protection cases?

A. To ensure legal closure

B. To monitor the child’s recovery and prevent further harm

C. To reduce involvement from external agencies

D. To maintain family privacy

Answer: B. To monitor the child’s recovery and prevent further harm
