

1. Which of the following ethical theories emphasizes the consequences of actions?
A. Deontology
B. Virtue ethics
☒ C. Utilitarianism
D. Egoism
2. According to deontology, moral actions are based on which of the following concepts?
A. Consequences
☒ B. Duties and principles
C. Happiness
D. Personal interests
3. Which of the following targets is the focus of virtue ethics?
A. The consequences of actions
B. Following moral rules
☒ C. Developing good character traits
D. Maximizing utility
4. Who is associated with the concept of the categorical imperative in deontological ethics?
☒ A. Immanuel Kant
B. John Stuart Mill
C. Aristotle
D. Jeremy Bentham
5. Utilitarianism determines the morality of actions based on:
A. Duty and principles
☒ B. Character traits
C. Consequences for the greatest number of people
D. Personal happiness
6. Ethical egoism suggests that individuals should do which of the following?
A. Follow moral duties and principles
B. Maximize happiness for others
☒ C. Act in their own self-interest
D. Develop virtuous character traits
7. Which ethical theory is often associated with the "Golden Rule"?
☒ A. Deontology
B. Virtue ethics
C. Utilitarianism
D. Altruism
8. The principle of making decisions based on reputation of a person reflects which of these?
A. Duty and principles
B. Happiness and pleasure
☒ C. Virtuous character traits
D. Self-interest

9. According to Aristotle's virtue ethics, moral virtue is found in which of the following ideas?
- A. Following universal moral rules
 - B. The mean between extremes of character traits
 - C. Maximizing pleasure for oneself
 - D. Pursuing self-interest
10. Which of the following ends is emphasized by altruism as an ethical theory?
- A. Maximizing personal happiness
 - B. Acting in the best interest of others
 - C. Following moral duties and principles
 - D. Developing virtuous character traits
11. Rule utilitarianism differs from act utilitarianism by which of the following characteristics?
- A. Emphasizing individual happiness
 - B. Focusing on the consequences of specific actions
 - C. Following moral duties and principles
 - D. Maximizing utility through adherence to general rules
12. Which ethical theory would prioritize saving a larger group of people even if it meant sacrificing the well-being of a smaller group?
- A. Deontology
 - B. Virtue ethics
 - C. Utilitarianism
 - D. Egoism
13. Kantian deontology holds that moral duties are determined by which of the following ends?
- A. The consequences of actions
 - B. Personal happiness
 - C. Universal principles of reason
 - D. Cultural norms
14. Ethical relativism suggests which of the following ideas?
- A. There are universal moral truths
 - B. Moral values are culturally determined
 - C. The consequences of actions determine morality
 - D. Happiness is the ultimate goal of morality
15. Which ethical theory would consider lying always wrong, regardless of the consequences?
- A. Utilitarianism
 - B. Virtue ethics
 - C. Deontology
 - D. Egoism
16. The "veil of ignorance" concept is associated with which ethical theory?
- A. Utilitarianism
 - B. Virtue ethics
 - C. Deontology

- D. Social contract theory
17. According to social contract theory, moral rules are influenced by which of the following?
- A. Determined by consequences
 - B. Based on personal interests
 - C. Agreed upon by rational individuals in a hypothetical situation
 - ☒ D. Derived from cultural norms
18. Cultural relativism posits which of the following ideas? Moral values are
- A. objective and universal.
 - B. determined by personal beliefs.
 - ☒ C. determined by cultural context.
 - D. irrelevant.
19. Which ethical theory emphasizes the importance of developing virtuous character traits?
- A. Deontology
 - B. Utilitarianism
 - ☒ C. Virtue ethics
 - D. Ethical egoism
20. Divine command theory holds that moral actions are....
- A. determined by consequences.
 - B. based on duty and principles.
 - ☒ C. commanded by a divine authority.
 - D. based on self-interest.
21. According to Virginia Henderson's needs theory, which of the following is considered a fundamental human need?
- A. Social interaction
 - ☒ B. Personal achievement
 - C. Financial security
 - D. Spiritual enlightenment
22. Henderson's theory suggests that nursing care should focus on which of the following?
- A. Diagnosing diseases
 - B. Administering medication
 - ☒ C. Meeting the patient's basic needs
 - D. Providing advanced medical treatments
23. One of Henderson's principles is that nursing is assisting the individual to gain independence in which of the following areas?
- A. Meeting biological needs
 - ☒ B. Achieving self-actualization
 - C. Maintaining social relationships
 - D. Obtaining financial stability
24. According to Henderson, what is the role of the nurse in relation to the patient's needs?
- A. To prioritize the nurse's agenda

- B. To provide emotional support only
 - ☒ C. To assist the patient in meeting needs independently
 - D. To strictly adhere to medical protocols
25. Which of the following concepts often describes Henderson's needs theory?
- ☒ A. Holistic
 - B. Reductionist
 - C. Mechanistic
 - D. Biomedical
26. Which of the following is not one of Henderson's basic principles of nursing care?
- ☒ A. Promoting health and wellness
 - B. Encouraging dependence
 - C. Facilitating growth and development
 - D. Preventing illness and injury
27. Henderson's theory emphasizes the importance of which of the following ends?
- A. Minimizing patient involvement in care decisions
 - B. Focusing solely on physical needs
 - ☒ C. Addressing the patient's psychological needs
 - D. Disregarding cultural beliefs and values
28. Henderson's needs theory is often used as a framework for which of the following?
- ☒ A. Disease management
 - B. Palliative care
 - C. Emergency medicine
 - D. Surgical interventions
29. Which term best describes Henderson's approach to nursing care?
- ☒ A. Patient-centered
 - B. Disease-centered
 - C. Doctor-centered
 - D. Institution-centered
30. Henderson's needs theory is based on which of the following beliefs?
- A. Patients are solely responsible for meeting their own needs
 - B. Nursing care should be task-oriented
 - ☒ C. Patients have basic needs that nurses should assist them in meeting
 - D. Nurses should focus on advanced medical procedures
31. According to Dorothea Orem's Self-Care Deficit Theory, self-care refers to which of the following definitions?
- ☒ A. Activities individuals perform to maintain their health
 - B. Medical interventions provided by healthcare professionals
 - C. The absence of any health-related issues
 - D. Support provided by family members
32. Orem's theory suggests that individuals have the ability to engage in self-care activities to achieve which of the following ends?

- A. Eliminate the need for healthcare services
- B. Maintain optimal health and well-being
- C. Avoid all forms of medical treatment
- D. Depend entirely on healthcare professionals

33. The concept of self-care deficit in Orem's theory refers to which of the following?

- A. Individuals' inability to perform activities of daily living
- B. Lack of access to healthcare facilities
- C. Overreliance on medical interventions
- D. The absence of healthcare providers

34. Orem's theory identifies three categories of self-care requisites, which include which of the following?

- ☒ A. Universal, developmental, and health deviation
- B. Basic, intermediate, and advanced
- C. Physical, emotional, and social
- D. Primary, secondary, and tertiary

35. According to Orem, the role of nurses is to do which of the following duties?

- A. Provide all necessary care for patients
- ☒ B. Teach individuals to care for themselves when able
- C. Exclude patients from the care process
- D. Delegate all care tasks to family members

36. Orem's theory emphasizes the importance of which of the following?

- ☒ A. Independence in self-care activities
- B. Complete reliance on healthcare professionals
- C. Minimizing patients' involvement in care decisions
- D. Avoiding self-care activities altogether

37. The goal of nursing interventions in Orem's theory is to achieve which of the following?

- A. Encourage dependence on healthcare services
- B. Minimize patients' responsibility for self-care
- ☒ C. Facilitate individuals' ability to perform self-care activities
- D. Eliminate the need for self-care altogether

38. The self-care deficit nursing theory is often applied in which of the following settings?

- A. Emergency medicine
- ☒ B. Preventive healthcare
- C. Long-term care settings
- D. Cosmetic surgery

39. Orem's theory is based on which of the following assumptions?

- A. Patients are incapable of participating in their own care
- B. Nurses should perform all self-care activities for patients
- ☒ C. Individuals have the potential for self-care
- D. Healthcare should focus solely on medical interventions

40. Orem's theory highlights the importance of which of the following?

- A. Encouraging dependence on healthcare providers
 - B. Excluding family members from the care process
 - ☒ C. Promoting self-care abilities in individuals
 - D. Discouraging individuals from engaging in self-care activities
41. According to Florence Nightingale's Environmental Theory, the environment plays a crucial role which of the following?
- ☒ A. Determining genetic traits
 - B. Influencing patient outcomes
 - C. Providing medical treatment
 - D. Dictating cultural practices
42. Nightingale's theory emphasizes the importance of which environmental factor in promoting health?
- A. Social interactions
 - B. Noise levels
 - ☒ C. Air temperature
 - D. Aesthetic beauty
43. One of Nightingale's key principles is that the environment should be manipulated to achieve which of the following ends?
- A. Maximize hospital revenue
 - B. Minimize patient comfort
 - ☒ C. Promote rest and healing
 - D. Exclude family members
44. Nightingale's theory suggests that a well-ventilated and clean environment can contribute to which of the following?
- A. Increase the risk of infection
 - ☒ B. Promote faster recovery
 - C. Decrease staff morale
 - D. Induce stress in patients
45. The concept of "nursing as the control of the environment" in Nightingale's theory refers to which of the following?
- A. Restricting patients' freedom
 - B. Eliminating all noise in the hospital
 - ☒ C. Manipulating the environment to promote health
 - D. Excluding family members from the care process
46. Nightingale advocated for the use of which environmental element to enhance healing?
- ☒ A. Bright lighting
 - B. Sterile surfaces
 - C. Natural ventilation
 - D. Synthetic materials
47. According to Nightingale, what role does light play in the healthcare environment?
- A. It should be minimized to promote rest

- B. It should be varied to stimulate patients
- ☒ C. It should be bright to create a cheerful atmosphere
- D. It should be absent to induce sleep

48. Nightingale's theory suggests that healthcare facilities should be designed to achieve which of the following ends?
- A. Maximize noise levels for patient engagement
 - B. Minimize staff interaction with patients
 - C. Promote patient privacy and dignity
 - ☒ D. Exclude natural elements such as sunlight and fresh air
49. Nightingale's Environmental Theory is often credited with transforming nursing practice by which of the following means?
- A. Emphasizing the importance of medical interventions
 - B. Prioritizing technological advancements over patient care
 - ☒ C. Highlighting the significance of the physical environment in patient outcomes
 - D. Ignoring the impact of the environment on health
50. Nightingale's theory laid the foundation for modern nursing practice by emphasizing which of the following?
- A. The importance of advanced medical treatments
 - B. The role of spirituality in healing
 - ☒ C. The holistic nature of patient care, including environmental factors
 - D. The exclusion of family members from the care process
51. What is the essence of caring in nursing practice?
- A. Following medical protocols strictly
 - ☒ B. Providing emotional support to patients
 - C. Administering medication accurately
 - D. Conducting research on healthcare trends
52. Which best describes the nurse's role in caring for patients?
- A. Performing tasks efficiently
 - B. Prioritizing personal needs over patients' needs
 - ☒ C. Demonstrating empathy and compassion
 - D. Avoiding emotional involvement with patients
53. How does caring differ from curing in nursing practice?
- A. Curing focuses on physical interventions, while caring encompasses holistic support.
 - B. Curing involves medication administration, caring involves emotional support only.
 - C. Caring is the responsibility of family members, while curing is the responsibility of healthcare professionals.
 - D. Caring is only relevant in palliative care; curing is relevant in all healthcare settings.
54. Which statement best reflects the concept of caring as described in nursing literature?
- A. Caring is an optional aspect of nursing practice.

- B. Caring involves meeting patients' physical needs only.
- ☒ C. Caring is central to nursing practice and enhances patient outcomes.
- D. Caring is solely the responsibility of healthcare providers, not patients.

55. What is the importance of establishing a caring relationship between nurse and patient?
- A. It increases the workload for nurses.
 - ☒ B. It improves patient satisfaction and trust in healthcare.
 - C. It limits communication between nurse and patient.
 - D. It reduces the need for medical interventions.
56. Which action by a nurse demonstrates caring behavior?
- A. Avoiding eye contact with patients
 - B. Rushing through patient assessments
 - ☒ C. Listening actively to patients' concerns
 - D. Minimizing time spent with patients
57. How does caring contribute to the holistic well-being of patients?
- A. It addresses only physical needs.
 - B. It neglects psychological and spiritual aspects.
 - ☒ C. It considers the interconnectedness of physical, emotional, and spiritual aspects of health.
 - D. It focuses solely on medical treatments.
58. Which factor influences the nurse's ability to provide effective caring?
- A. Strict adherence to routine procedures
 - ☒ B. Lack of empathy towards patients
 - C. Emotional intelligence and compassion
 - D. Ignoring patients' cultural beliefs
59. In nursing practice, caring is demonstrated through which of the following?
- A. A focus on completing tasks quickly
 - ☒ B. Respecting patients' autonomy and dignity
 - C. Avoiding emotional connections with patients
 - D. Excluding family members from the care process
60. How does caring contribute to the nurse's professional identity?
- A. It diminishes the importance of technical skills.
 - ☒ B. It emphasizes the nurse's role as a caregiver and advocate.
 - C. It increases the nurse's workload unnecessarily.
 - D. It decreases job satisfaction among nurses.
61. The nurse is evaluating the concept of nursing theories, which would the nurse rule out as a purpose of nursing theories?
- ☒ A. To help build a common nursing terminology
 - B. To help establish criteria to measure the quality of nursing care

- C. To offer a framework for generating knowledge and new ideas
- D. To promote enhanced salaries and benefits for nurses

62. Which of the theorists below propounded a theory suitable for prioritizing patient care activities?
- A. Henderson
 - B. Maslow
 - C. Nightingale
 - ☒ D. Orem
63. Having the passion for the nursing work before enrolling into it is term as
- ☒ A. Nursing as a calling
 - B. Nursing as a profession
 - C. The art of nursing
 - D. The science of nursing
64. Virginia Henderson identified how many categories of human needs?
- A. 12
 - B. 13
 - ☒ C. 14
 - D. 16
65. Which of the following is closely aligned with Leininger's theory?
- ☒ A. Caring for patients from unique cultures
 - B. Caring for patients who cannot adapt to internal and external environmental demands
 - C. Understanding the humanistic aspects of life
 - D. Seeking assistance before attempting a new procedure
66. A new graduate is **best** able to demonstrate caring behavior towards the client by which of the following?
- A. Attempting to do new treatments as quickly as possible
 - B. Avoiding situations with clients that may be uncomfortable
 - C. Being honest and informing clients that she has never performed the treatments before
 - ☒ D. Seeking assistance before attempting a new procedure
67. Transcultural model of Nursing model was proposed by
- A. Ida Jean Orlando

INDEX NUMBER _____

SIGNATURE _____

- B. Joyce Travelbee
- ☒ C. Madeleine Leninger
- D. Rosmary Rizzo Parse

68. All the following are advantages of self-care deficit theory except:

- A. Limited acknowledgement of the individual emotional needs
- B. Provides a comprehensive base to nursing practice
- C. Advocates for the use of the nursing process
- D. Specifically defines when nursing care is needed

69. Ethics is concerned with the correctness of a:

- A. conduct
- B. intuition
- C. perception.
- ☒ D. Thought

70. Which of the following refers to a conscious mental process which causes a person to behave in a particular way?

- ☒ A. Instinct
- B. Motive
- C. Will
- D. Wish
