

1. Which statement best describes the traditional concept of health?

- a. Health is only the absence of disease.
- b. Health is balance between physical, spiritual, and psychological well-being.
- c. Health is determined by scientific laboratory findings.
- d. Health depends solely on genetic inheritance.

☒ Answer: b

Rationale: Traditional health systems view health as harmony among physical, spiritual, and psychological elements, not just the absence of disease.

---

2. Which of the following best explains the traditional belief about the cause of disease before the germ theory?

- a. Diseases are caused by microscopic organisms.
- b. Diseases result from an imbalance in body fluids.
- c. Diseases come from “bad air” or miasma.
- d. Diseases are genetic.

☒ Answer: c

Rationale: Before the germ theory, the miasma theory proposed that diseases were caused by foul-smelling air from decomposing matter.

---

3. Who traced the cholera outbreak in London to contaminated water?

- a. Louis Pasteur

- b. Robert Koch
- c. Ignaz Semmelweis
- d. John Snow

☒ Answer: d

Rationale: John Snow's work linking cholera to contaminated water marked the beginning of modern epidemiology.

---

4. Which traditional practice involves the use of plants for healing?

- a. Divination
- b. Herbal medicine
- c. Exorcism
- d. Faith healing

☒ Answer: b

Rationale: Herbal medicine uses natural plants to restore bodily balance and treat ailments.

---

5. Spiritual ill-health in African traditional belief is often caused by:

- a. Overexertion and dehydration
- b. Offending ancestors or breaking taboos
- c. Lack of exercise
- d. Poor nutrition

 Answer: b

Rationale: Many African traditional systems believe that angering ancestors or violating taboos can cause spiritual illness.

---

6. A healer performs a ritual to remove an evil spirit causing illness. This is known as:

- a. Faith healing
- b. Exorcism
- c. Divination
- d. Meditation

 Answer: b

Rationale: Exorcism is the practice of expelling evil spirits believed to cause illness.

---

7. Which of the following best describes psychological health in traditional medicine?

- a. It refers only to brain chemistry.
- b. It is the absence of mental illness.
- c. It depends on harmony within self and community.
- d. It focuses on economic well-being.

 Answer: c

Rationale: Traditional systems view mental and emotional balance as connected to community harmony and spiritual health.

---

8. A person feels unwell even though no physical cause is found. This is referred to as:

- a. Disease
- b. Illness
- c. Sickness
- d. Infection

 Answer: b

Rationale: Illness refers to the individual's subjective feeling of being unwell.

---

9. Which statement correctly defines "disease"?

- a. The social role assumed when unwell
- b. The subjective experience of discomfort
- c. A pathological condition of body or organ
- d. A supernatural imbalance

 Answer: c

Rationale: Disease is an objective, medically identifiable pathological condition.

---

10. Which concept emphasizes balance within the body as essential for health?

- a. Miasma theory

- b. Germ theory
- c. Homeostasis
- d. Witchcraft

☒ Answer: c

Rationale: Homeostasis refers to the body's ability to maintain a stable internal environment.

---

11. In traditional African medicine, illness caused by witchcraft is treated through:

- a. Antibiotics
- b. Rituals and protective charms
- c. Exercise therapy
- d. Fasting and meditation

☒ Answer: b

Rationale: Witchcraft-related illnesses are treated by rituals, charms, and spiritual interventions.

---

12. A patient believes their sickness is due to breaking a food taboo. This reflects which traditional belief?

- a. Homeostatic imbalance
- b. Genetic inheritance
- c. Taboo violation and supernatural punishment
- d. Nutritional deficiency

 Answer: c

Rationale: Many traditional systems associate illness with breaking sacred rules or taboos.

---

13. Which religion believes illness can be a test of faith or divine will?

- a. Hinduism
- b. Christianity
- c. Buddhism
- d. Islam

 Answer: b

Rationale: In Christianity, illness is sometimes viewed as a test of faith or part of God's divine plan.

---

14. The Islamic healing practice involving Quranic recitation is called:

- a. Karma
- b. Ruqyah
- c. Dhanvantari
- d. Divination

 Answer: b

Rationale: Ruqyah refers to healing through recitation of Quranic verses.

---

15. Which statement best defines divination in traditional medicine?

- a. A method of identifying microbial causes of disease
- b. A process of consulting spirits for diagnosis
- c. A psychological counseling session
- d. A herbal preparation ritual

☒ Answer: b

Rationale: Divination seeks to identify the spiritual cause of illness through communication with spirits or ancestors.

---

16. The traditional concept that illness results from disturbing natural forces like water or wind is:

- a. Disturbance of forces of nature
- b. Witchcraft affliction
- c. Spiritual imbalance
- d. Psychological illness

☒ Answer: a

Rationale: Health is believed to depend on harmony with natural forces; disturbing them can lead to disease.

---

17. Which figure introduced antiseptics during surgery, reducing postoperative infections?

- a. Louis Pasteur

- b. Joseph Lister
- c. Robert Koch
- d. John Snow

☒ Answer: b

Rationale: Joseph Lister applied Pasteur's findings by using antiseptics in surgery, drastically reducing infections.

---

18. In traditional healing, which practice is used to reveal hidden spiritual causes of illness?

- a. Bloodletting
- b. Divination
- c. Exorcism
- d. Faith healing

☒ Answer: b

Rationale: Divination identifies underlying spiritual or ancestral causes of illness before treatment.

---

19. Ancestor veneration rituals are performed mainly to:

- a. Prevent bacterial infection
- b. Maintain spiritual harmony and good health
- c. Replace modern medication
- d. Test community faith

 Answer: b

Rationale: Respecting and appeasing ancestors ensures spiritual protection and prevents illness.

---

20. Which of the following describes faith healing?

- a. Healing by herbal decoction
- b. Healing through divine intervention or prayer
- c. Healing by balancing body fluids
- d. Healing through meditation only

 Answer: b

Rationale: Faith healing involves seeking recovery through prayer, belief, and divine power.
