- c. To promote well-being

d. To restore balance

65. What is the primary approach in traditional medicine?

- a. Pharmaceutical
- b. Surgical
- c. Holistic**
- d. Symptomatic

66. What is gerontology?

- a. Study of aging and older adults**
- b. Study of disease prevention
- c. Study of mental health
- d. Study of healthcare management

67. Which age group is primarily focused on in gerontology?

- a. 40-60 years
- b. 60-80 years
- c. 65+ years**
- d. All ages

68. Which condition is common among older adults due to aging?

- a. Osteoporosis
- b. Hypertension
- c. Diabetes
- d. All of the above**

69. What is the primary cognitive change associated with aging?

- a. Memory loss
- b. Decreased problem-solving ability
- c. Reduced reaction time
- d. **All of the above**

70. Which mental health condition is common among older adults?

- a. Depression
- b. Anxiety
- c. Dementia
- d. **All of the above**

71. What is the primary social change associated with aging?

- a. Retirement
- b. Loss of spouse
- c. None of the above
- d. **A&B only**

72. Which emotional challenge is common among older adults?

- i. Grief
- ii. Loneliness
- iii. Hypertension
- iv. Gout

- a. **I&II only**
- b. II only
- c. II&III only
- d. II&IV only

73. What is the primary goal of gerontological healthcare?

- a. Cure diseases
- b. Prevent diseases
- c. Improve quality of life**
- d. Reduce healthcare cost

74. Which policy supports older adults' healthcare needs?

- a. Medicare
- b. Medicaid
- c. Social security
- d. All of the above**

75. Which of the following is not among primary theory of aging?

- a. Disengagement theory
- b. Activity theory
- c. Continuity theory
- d. Positivity theory**

76. _____ is multidisciplinary field that draws its content and method from biology, medical science.

- a. Traditional Medicine
- b. Health Science
- c. Gerontology**
- d. Genrontology

77. What is chronological age?

- a. **Biological Age**
- b. Actual age
- c. Psychological Age
- d. Social Age
