

FACULTY OF HEALTH AND ALLIED SCIENCES

DEPARTMENT OF NURSING

END OF SEMESTER EXAMINATION- 2023/2024 ACADEMIC YEAR

KNUR 405: TOOLS AND METHODS OF TEACHING (3 CREDIT HOURS)

DURATION: 1HR:20MIN DATE: 8TH MAY, 2024

INSTRUCTION FOR THE PAPER:

1. Read the instructions of each section and answer accordingly
2. Answer *ALL* Questions on the question paper.
3. Do not leave your seat unless you are given permission by an Invigilator.
4. Do not communicate in any way with any other candidate in the examination room.
5. There are hundred (100) questions in all, circle the MOST appropriate answers.
6. PDA's and mobile phones are NOT permitted in this examination.
7. You are allowed to use your own calculators, pen, pencils and rulers.
8. You are not to leave the examination room until after the first hour of the examination.
9. At the end of the examination, remain seated until your answer book(s) have been collected and you have been told to leave.

GOOD LUCK

1. Students are most likely to be intrinsically motivated to learn and master subject matter when they:
- A. anticipate that they will receive positive reinforcement for achieving instructional objectives.
 - ☒ B. believe that the work they are doing is interesting and relates to their own lives.
 - C. know that they will be tested on their understanding of the content in the near future.
 - D. perceive that their performance compares favourably with that of peers engaged in the same tasks.
2. In classical conditioning, what is paired
- A. The conditioned stimulus and neutral stimuli
 - B. The conditioned stimulus and the unconditioned stimulus
 - C. The unconditioned response and the unconditioned stimulus
 - ☒ D. The unconditioned stimulus and the neutral stimuli
3. Learning by trial and error is called:
- A. Classical conditioning
 - ☒ B. Instrumental Learning
 - C. Positive reinforcement
 - D. Social Learning
4. Ivan Pavlov's theory of how people learn or acquire uncomplicated habits and reflexes is called
- ☒ A. Classical conditioning.
 - B. Modeling.
 - C. Operant conditioning.
 - D. Positive reinforcement.
5. Learning is described as the process of having one's behaviour modified, more or less, permanently, by what he does and the consequences of his actions, or by what he observes"
- A. Mune et al 1992
 - B. Muni et al 1972
 - C. Munne at al 1992
 - ☒ D. Munn et al 1972
6. A nurse educator designed various educational programs that employ role-playing as a teaching strategy. Which group of people should the nurse anticipate will benefit the most from role-playing?
- A. Older adults preparing to retire from the workforce
 - B. Men unwilling to admit that they have a drinking problem
 - ☒ C. Adolescents learning to abstain from recreational drug use
 - D. Middle-aged adults preparing for total-knee replacement surgery

7. A nurse in community health is planning to begin a class to help mothers returning to work better cope with the stresses of multiple roles. The nurse would most-likely use:
- ☒ A. an andragogical approach.
 - B. a behavioral approach.
 - C. an operational approach.
 - D. a pedagogical approach.
8. A neighborhood association group has asked the local nurse in community health for a class on environmental hazards. The nurse in community health has seen good information in the community health text and thinks about getting permission to copy some of the information. The most important thing the nurse should do before using copies of this material is to:
- ☒ A. assess the literacy level of the group.
 - B. see how many plan to attend.
 - C. see whether the group is ready to learn.
 - D. secure a good space for a group meeting.
9. The nurse has just taught a client newly diagnosed with diabetes how to administer sliding-scale insulin. The most effective way to evaluate learning is to:
- A. provide an online test module.
 - B. ask whether there are any questions.
 - ☒ C. ask for a return demonstration.
 - D. give a short paper-and-pencil quiz.
10. A nursing student prepares a treatment plan for a client that draws upon the student's understanding of pathophysiology and nursing practice theory learned in the student's coursework. This application of new information used in a different way demonstrates the educational principle of:
- A. affective domain.
 - ☒ B. cognitive domain.
 - C. events of instruction.
 - D. principles of effective education.
11. How would a teacher be able to make his/ her students independent?
- ☒ A. Give responsibility to everyone
 - B. Giving orders and expecting obedience
 - C. Ignoring their petty fights
 - D. Solving their problems for them
12. Why is 'learning by doing' important?
- ☒ A. It develops interest among students
 - B. Keeps students busy
 - C. Maintains discipline
 - D. Promotes meaningful learning

- INDEX
20. The use of Operant Conditioning
13. All the following can be adopted for effective classroom teaching except?
- A. Improving classroom climate
 - ☒ B. Manipulating teaching methods
 - C. Teaching latest trends and advances
 - D. Use of technological aids
14. Types of readiness termed as peek is by....?
- A. Lichtenthial (1991)
 - B. Lichtenthial (1982)
 - ☒ C. Lichtenthial (1990)
 - D. Lichtenthial (1891)
15. The goal of teaching is to cause a desirable change in
- ☒ A. behaviour
 - B. education
 - C. knowledge
 - D. syllabus
16. To make learning effective, a goal must be meaningful in terms _____?
- A. Intellectual ideas
 - B. Objectives of the curriculum
 - C. Standards of others
 - ☒ D. The needs and purposes of students
17. In classical conditioning, what is paired
- A. The conditioned stimulus and neutral stimuli
 - B. The conditioned stimulus and the unconditioned stimulus
 - C. The unconditioned response and the unconditioned stimulus
 - ☒ D. The unconditioned stimulus and the neutral stimuli
18. The concept of self-regulated learning derives from
- ☒ A. Bandura's work with observational learning
 - B. Pavlov's work with the conditioned reflex
 - C. Skinner's work with juvenile delinquents
 - D. Thorndike's law of effect
19. When it comes to applying learning theory to the classroom, the most pressing problem for educators is:
- A. Finding age-appropriate learning materials
 - B. Getting students to learn
 - ☒ C. Presenting students with the right stimuli on which to focus their attention and mental effort
 - D. Presenting the learning material in a gender-neutral manner

20. The use of pleasant and unpleasant consequences to change behavior is known as:
- ☒ A. Operant conditioning
 - B. Pavlovian conditioning
 - C. Stimulus generalization
 - D. The conditioned reflex
21. All the following would not be a practical and appropriate use of punishment in the classroom?
- A. Corporal punishment
 - B. Loss of privileges contingent upon unacceptable behavior- such as having to stay in during recess for talking out of turn.
 - C. Loss of privileges for unspecified behaviors
 - ☒ D. Providing a positive reinforcer for stopping unacceptable behavior.
22. Operant conditioning states that,
- ☒ A. Behavior is controlled by its consequences
 - B. Once a behavior is learned, it is not forgotten
 - C. Punishment and negative reinforcement are the same
 - D. Punishment can strengthen behavior
23. The teaching signs of children is termed as....
- ☒ A. Pedagogy
 - B. Paedegogy
 - C. Pediatric
 - D. Paediatric
24. Learning is generally considered a lasting change in behaviour based on
- A. Challenge and experience.
 - B. Challenge and reinforcement.
 - C. Practice and challenge.
 - ☒ D. Practice and experience.
25. When it comes to applying learning theory to the classroom, the most pressing problem for educators is:
- A. Finding age-appropriate learning materials
 - B. Getting students to learn
 - ☒ C. Presenting students with the right stimuli on which to focus their attention and mental effort
 - D. Presenting the learning material in a gender-neutral manner
26. To minimize forgetting, _____ should be encouraged.
- A. Cramming
 - B. Discrimination
 - C. Overlearning
 - ☒ D. Recitation

27. Which of the following is true about the ways of learning for students?

- A. All students immediately follow teacher's instruction
- B. students follow the way other students learn
- ☒ C. Each student has a unique learning style
- D. Speed of learning is same for all students

28. Andragogy is a term used to describe.....

- A. Study of children
- B. Study of adult
- ☒ C. Science of teaching adult
- D. Science of teaching children.

29. All these are examples of experiential readiness to learn, except?

- A. Cultural background.
- ☒ B. Learning disabilities.
- C. Level of aspiration.
- D. Locus of control.

30. All the following are criteria for prioritizing learning needs except

- A. Readiness needs
- B. Desirable needs
- ☒ C. Possible needs
- D. Mandatory needs

31. Which learning theory emphasizes the role of rewards and punishments in shaping behavior?

- ☒ A. Behaviorism
- B. Constructivism
- C. Cognitivism
- D. Humanism

32. The process of learning through observing others' behavior is known as:

- A. Classical conditioning
- B. Operant conditioning
- ☒ C. Social learning
- D. Insight learning

33. Which learning principle suggests that new information is better retained when it is connected to existing knowledge and experiences?

- ☒ A. Transfer of learning

- B. Reinforcement
- C. Organization
- D. Motivation

34. Which learning principle suggests that learning is enhanced when learners are actively engaged in the learning process?

- A. Self-efficacy
- B. Metacognition
- ☒ C. Active learning
- D. Multiple intelligences

35. Which learning theory suggests that learning occurs through the interaction of personal experiences, social interactions, and cultural influences?

- A. Behaviorism
- B. Constructivism
- C. Cognitivism
- ☒ D. Humanism

36. According to the behaviorist perspective, learning is primarily influenced by:

- A. Innate abilities and genetic factors
- B. The social and cultural environment
- C. Personal experiences and subjective interpretations
- ☒ D. Stimulus-response associations and reinforcement

37. The concept of "schema" is associated with which learning theory?

- A. Behaviorism
- B. Constructivism
- ☒ C. Cognitivism
- D. Humanism

38. Which learning theory emphasizes the importance of self-directed learning and personal growth?

- A. Behaviorism
- ☒ B. Constructivism
- C. Cognitivism
- D. Humanism

39. Which learning principle suggests that individuals are more likely to engage in a behavior if it is followed by a pleasant consequence?

- ☒ A. Reinforcement
- B. Punishment
- C. Extinction
- D. Generalization

40. The idea that individuals actively construct knowledge by combining new information with existing knowledge structures is associated with:
- A. Behaviorism
 - B. Constructivism
 - ☒ C. Cognitivism
 - D. Humanism
41. According to the concept of "cognitive load," learning is more effective when:
- ☒ A. The learning material is presented in a complex and challenging manner
 - B. The learning material is presented in a simple and easily understandable manner
 - C. The learning environment is noisy and distracting
 - D. The learner is multitasking and engaged in several activities simultaneously
42. The process of strengthening a behavior by presenting a desirable stimulus is known as:
- ☒ A. Positive reinforcement
 - B. Negative reinforcement
 - C. Positive punishment
 - D. Negative punishment
43. Which learning principle suggests that individuals are motivated to learn when they perceive a sense of autonomy and control over their learning process?
- ☒ A. Self-efficacy
 - B. Intrinsic motivation
 - C. Extrinsic motivation
 - D. Self-determination
44. What is the first step in planning a lesson?
- ☒ A. Setting objectives
 - B. Choosing materials
 - C. Assessing students' prior knowledge
 - D. Creating a lesson plan
45. Which of the following is NOT a component of a lesson plan?
- ☒ A. Learning objectives
 - ☒ B. Assessment strategies
 - ☒ C. Classroom management techniques
 - D. Lesson duration
46. What is the purpose of a warm-up activity in a lesson plan?
- A. To introduce new content
 - ☒ B. To review previously learned material
 - ☒ C. To assess students' understanding
 - D. To provide a break for students
